

POIZON 英语本地化风格指南 // POIZON English Localization Style Guide

欢迎使用 POIZON Global 英语本地化风格指南！

什么是风格指南？

风格指南是一套语言表达的指导手册，帮助转化中文内容以符合特定地区的文化特点和语言风格。

为什么POIZON需要风格指南？

POIZON 风格指南有助于多语言团队在翻译、校对过程中保持一致的语言风格和质量，提升用户体验。

Welcome to POIZON Global's English Localization Style Guide!

What is a Style Guide?

A Style Guide is a handbook for language expression, assisting in tailoring Chinese content to suit the cultural nuances and communication styles of specific regions.

Why does POIZON need a Style Guide?

POIZON Style Guide helps ensure consistent style and quality of certain language versions of our user interfaces and other texts, enhancing user experience.

1. POIZON 交互风格 // POIZON voice and tone

1.1 品牌定位 Brand positioning by Andy

品牌定位：全球领先的正品时尚潮流服务平台。

品牌口号：用合理的价格买到全球值得分享和炫耀的好商品和品牌。

品牌个性：有一定逼格基础上的活力。

1.2 目标用户 Intended audience

有一定购买力基础和对美好事物有追求的用户群体；品类聚焦在潮流中的鞋子和奢侈品为主力。

1.3 语言风格 Voice and tone

Voice refers to the overall personality and style of a brand, which remains consistent across all communication channels; On the other hand, **tone** is the specific expression of that voice in a particular piece of content or communication, adapting to the context and audience while still reflecting the brand's personality.

Voice 风格

Confident: Reflects assurance in the quality and authenticity of our products, conveying trustworthiness to our audience.

自信: 反映对产品质量和真实性的保证, 向受众传达可信赖的感觉。

Stylish: Exudes a sense of sophistication and trendiness, showcasing our brand's commitment to staying current and offering fashionable choices to our audience.

时尚: 展现出紧跟潮流的理念, 为受众提供时尚选择。

Dynamic: Implies a sense of energy and adaptability, aligning with the ever-changing trends in the fashion industry and the diverse interests of our audience.

活力: 体现出活力和适应性, 与时尚行业不断变化的趋势和受众多样化的兴趣相契合。

Relaxed: Creates a laid-back atmosphere, making our brand feel approachable and inviting to customers, encouraging them to explore and engage with our offerings at their own pace.

轻松: 营造轻松自在的氛围, 使品牌富有亲和力, 鼓励顾客以自己的节奏探索和体验我们的产品。

Approachable: Communicates openness and friendliness, fostering a sense of connection between our brand and our users, making them feel comfortable to interact and transact.

友好: 传达开放和友好的态度, 拉近品牌与用户之间的关系, 使其感到舒适愉快, 愿意在平台上进行互动和交易。

Tone 语气

基于上述风格, POIZON产品界面文案主要有以下几种语气:

Based on the above voices, the POIZON UI content mainly consists of the following tones:

Tone 语气	Neutral 中立的	Helpful 帮助性的	Celebratory 庆祝性的	Sympathetic 同情的	Authotitative 权威的
When to use 场景	Informing users or showing the UI functions 向用户提供信息 或展示界面功能	Guiding users through processes or helping them understand complex concepts 引导用户完成流 程或帮助理解复 杂的概念	Celebrating a major accomplishment or milestone on the platform 庆祝重要节点或目 标的达成	When something went wrong and it's POIZON's fault 平台出错时	When policy violations happen or formally notify important information 出现违反规定的 情况, 或通知重 要信息

Example 例子	Your order is delivered.	With Consignment Resale enabled, when a buyer cancels an order having been shipped, the item will be redirected to POIZON where it will remain available for resale, thus saving the return shipping cost for you.	Congrats. You've completed all New Seller tasks!	Something went wrong. Please try again later.	Due to a significant amount of violations, POIZON has restricted your listing privilege on this item.

2. 语言规范 // Language standards

2.1 语法、句法和拼写标准 Grammar, syntax and orthographic standards

2.1.1 缩写 Abbreviations

Acronyms are words formed from the first (or first few) letters of a series of words, and are pronounced as words (examples include: Benelux, NATO). They never take points. **Initialisms** are formed from the initial letters of a series of words and each separate letter is pronounced (examples include: BBC, MEP, USA, UK, EU). As a general principle, initialisms are written without points.

Truncations omit the end of a word (and sometimes other letters, too), while **contractions** omit letters from the middle. In AmE, both truncations and contractions take a full stop (e.g. Dr., Mr., Ltd.). **Contractions** can also refer to a word made by shortening and combining two words (e.g. I've, can't).

- ⚠️ 为保证文案清晰易懂，尽量避免缩写。Avoid abbreviations if possible. Clarity is our priority.
- ✅ 但在界面空间紧张时建议使用常见的缩写。If necessary to shorten words for space, use common abbreviations or POIZON terms.

Don't x	Do ✓
WYSIWYG	US Info

WYSIWYG (pronounced wiz-ee-wig) is a type of editing software that allows users to see and edit content in a form that appears as it would when displayed on an interface, webpage, slide presentation or printed document. WYSIWYG is an acronym for "what you see is what you get."

- **✗ 不要缩写 Do not abbreviate:**

- 公司、产品名 Company or product names
 - 文档、文献标题 Titles of documents or publications
 - 人名、地名 Name of people or places
- 文件类型 File type: If referring to a file type, capitalize when used as a name (PNG), and use lowercase when used as an extension (.png).

2.1.2 动词 Verbs

- **时态 Verb tense**

- The **present tense** is often easier to read and understand than the past or future tense. It's the best choice for most content.

Don't ✗	Do ✓
Your order has been delivered.	Your order is delivered.

- **语气 Mood of verbs**

- ✓ Most of the time, use the **indicative mood**. It's crisp and straightforward without being bossy.
- ✗ Don't switch moods within a sentence.

Mood	When to use	Example
Indicative ✓ 陈述语气	Statements of fact, questions, assertions, and explanations	Your order is delivered.
Imperative ✓ 祈使语气	Instructions, procedures, direct commands, requests and actions	Enter your password.
Subjunctive ✗ 虚拟语气	Wishes, hypotheses, and suggestions	We recommend that you fill in this section.

- **语态 Active and passive voice**

- Keep the voice **active** whenever you can.

Voice	When to use	Example
Active ✓ 主动语态	Mostly used	We also support your preferred payment options.
Passive ✓ 被动	Use only when you need to: - Avoid condescending text or blaming the customer, especially in errors, warnings, or notifications - Avoid awkward constructions - Emphasize the receiver of the action	Your order is delivered.

• 主谓一致 Verb agreement

- Use the verb form that agrees with the subject of the sentence in number.

2.1.3 人称 Person

- ✓ **使用第二人称** In general, use **second-person pronouns** (you, your) because the second person:

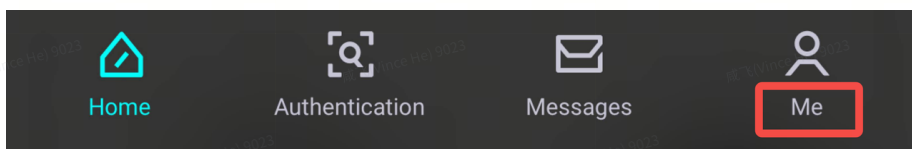

- supports a friendly, human tone and helps avoid passive voice
- is where we can easily use imperative sentences

- **慎用第一人称** Use singular first-person pronouns sparingly (I, me, my)

- 用于确认条款、类似情况的按键等 First-person singular pronouns can be used in product UI to show someone's control over an action in checkbox, button, or toggle labels.

Example: I agree to the Terms of Service.

- 用于菜单栏 First-person object pronoun (singular) can be used for UI sections.

2.1.4 标点符号 Punctuation

中英文标点映射关系

英文名称	英文标点	中文名称	中文标点	使用说明

Commas	,	逗号	,	
Periods	.	句号	。	1. 中文源文案可能出现句末句号缺失的情况，翻译时酌情加上 Chinese source text may lack periods at the end of sentences, add them as needed in translation. 2. 短语、祈使句在特殊情况下可不加句号，结合界面美观度酌情判断 Phrases and imperative sentences may not require periods in special cases
Colons	:	冒号	:	英文界面可能会有中文冒号混入其中⌚⌚，走查时要尤其注意 There may be Chinese colons on the English UI. Pay special attention during UAT.
Question marks	?	问号	?	
Exclamation points	!	感叹号	!	❌不要滥用感叹号!!! 用生动的词汇来表达情绪会更好!!!!!! Instead of relying on exclamation points to convey your urgency or excitement, use more vivid vocabulary.
Apostrophes	'	撇号		
Quotation marks	" " ' '	引号	“ ” ‘ ’	慎用双引号，因为引号也可以用于表示讽刺 Use quotation marks sparingly because they also can be used to indicate irony.
Semicolons	;	分号	;	
Ellipses	...	省略号	。 。 。 。 。 。	
Slashes	/	斜线	/	空间有限时，/用于表示or When space is limited, / is used to indicate "or". 前后是否空格：若仅两个单词之间，不要空格；若词组短语之间，前后空 Space? If between only two words, do not add a space; if between phrases or expressions, leave a space before and after.
Hyphens	-	连字符		连字符用于连接复合名词、动词和形容词中的单词。 Hyphens are used to connect words in compound nouns, verbs, and adjectives. Example: The prize-winning scientist

Dashes	En dash	-	破折号	—	En dash 表示：En dash indicates: 1. 跨度或范围 spans or ranges 2. 包含多个单词的复合形容词中间的连接 A connection in a compound adjective (multiple words) Example: The Nobel Prize-winning scientist
	Em dash	—			Em dash 最常用于表示句子中的停顿。比逗号语气强，但比句号或分号弱。An em dash is most often used to indicate a pause in a sentence. It's stronger than a comma, but weaker than a period or semicolon.

以下为中文源文案中可能出现，但无法直接对应到英文的标点或符号

The following are punctuation or symbols that may appear in Chinese source text but do not have direct equivalents in English

/	~	1. 表示“从。。。到。。。 ”的时间跨度 Indicates the time span "from...to..." 2. 放在句尾表示活泼的语气~~ Placed at the end of a sentence to convey a lively tone~~ x 以上两种情况，不能在英文译文中使用~ Do not use ~ in the above two situations.
	【】	中文源文案可能会用【】描述某一产品板块，用于引导用户去到特定板块进行操作。英文不要使用【】，避免出现适配问题，板块名首字母大写即可。 Chinese source text may have【】to describe a certain product section, guiding users to perform specific actions in that section. Avoid using【】in English to prevent adaptation issues, simply capitalize the section name instead.

3. 中-英翻译风格 // zh-CN to en-US translation style

3.1 选词 Word choice

4. 本地化规范 // Localization standards

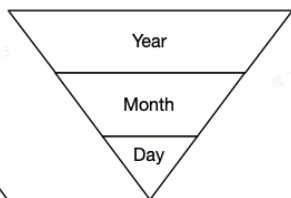

4.1 目标地区习惯用法 Locale-specific standards

4.1.1 日期/时间格式 Date and Time

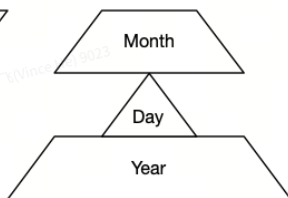

- 各地区日期逻辑：

Majority of the world's countries

China, Japan, Korea, Iran
ISO

USA

© alessandrorossini.org

• POIOZN 日期/时间格式规范：

使用说明																											
Term	Usage																										
24/7																											
上午/下午 AM, PM	Use <i>AM</i> and <i>PM</i> (preceded by a space). Use capital letters for <i>AM</i> and <i>PM</i> . Examples 10:45 AM 6:30 PM																										
日期 Dates	✔ Use the following format for dates: month day, year Eg. February 29, 2024 ○ In UI, it's OK to use numbers and slashes for dates if the code supports that format. Eg. 2/29/24 ✘ Don't use ordinal numbers (such as 1st, 12th, or 23rd) to indicate a date.																										
星期 Days of the week: Sunday–Saturday	✔ 首字母大写 ○ 仅在界面空间紧张、且上下文语境充分的情况下考虑缩写，如日历图表 Don't use abbreviations unless space is extremely limited <table><tr><th>Days of the week</th><th>2-letter</th><th>1-letter</th></tr><tr><td>Monday</td><td>Mo</td><td>M</td></tr><tr><td>Tuesday</td><td>Tu</td><td>T</td></tr><tr><td>Wednesday</td><td>We</td><td>W</td></tr><tr><td>Thursday</td><td>Th</td><td>R</td></tr><tr><td>Friday</td><td>Fr</td><td>F</td></tr><tr><td>Saturday</td><td>Sa</td><td>S</td></tr><tr><td>Sunday</td><td>Su</td><td>U</td></tr></table>			Days of the week	2-letter	1-letter	Monday	Mo	M	Tuesday	Tu	T	Wednesday	We	W	Thursday	Th	R	Friday	Fr	F	Saturday	Sa	S	Sunday	Su	U
Days of the week	2-letter	1-letter																									
Monday	Mo	M																									
Tuesday	Tu	T																									
Wednesday	We	W																									
Thursday	Th	R																									
Friday	Fr	F																									
Saturday	Sa	S																									
Sunday	Su	U																									
月份	✔ 月份首字母大写 Capitalize the names of months and their abbreviations.																										

Months: January–December	🟡 仅在界面空间紧张的情况下考虑缩写 Don't use abbreviations unless space is extremely limited. Use three-letter abbreviations when necessary: <i>Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, and Dec</i> 不需要在缩写后加点 Don't include a period with the abbreviations.
季节 Seasons	🟡 季节的概念比较模糊，尽量避免使用。目前较为常见的使用场景是商品的适用季节 Don't refer to seasons if you can avoid them. 春夏：SS 秋冬：FW ❌ 句子中无需首字母大写 Don't capitalize the seasons in sentences.
时间及时间范围 Time, ranges of time	- 使用数字表示时间，加上AM/PM Use numerals for times of day: 2:00, 4:15, 7:30. Always include AM and PM. - In text, use <i>to</i> in a range of times. Example 10:00 AM to 2:00 PM In a schedule or listing, use an en dash with no spaces around it. Example 10:00 AM–2:00 PM - 若时间范围包含两个时间和两个日期，用短折线 – 隔开，前后空格。关于时间和日期的先后位置，更为重要的概念放前面即可。In a date range that includes two times and two dates, add spaces around the en dash. Lead with whatever is most important to the customer within the context: time of day or date. Examples 2:15 AM–4:45 PM 4/1/16 12/1/17 2:15 PM – 4/1/18 4:45 PM 注意： - 句子中尽量写出 from/to 和 between/and ❌ 如果需要使用 –，前面不能出现 from 或 between Example <i>the 2012–13 academic year</i> <i>She attended college from 1998 to 2002 (not from 1998–2002)</i> <i>They met between 10 a.m. and 5 p.m. (not between 10 a.m.–5 p.m.)</i>

- 序数词

建议拼写出文本中的序数词

- 文字写法

以下情况拼写出文字：

- 0-9 的数字

✓ five minutes

- 句子以数字开头（但尽量避免这种情况，建议把数字调整至句子中间）

✓ Fifteen listings are created.

- 泛指

✓ You can specify thousands of combinations.

- 数字写法

以下情况使用数字：

- 数字 10 及以上

- 负数

- 百分比

- 尺寸
 - 包含小数点的数字
 - 范围
- 罗马数字

尽量避免罗马数字
- 分数

✓ 用-连接，不空格
two-fifths
- 百分比

使用数字+%，不空格
✓ 40%
- 货币

对于美元，用逗号区分千位，句号代表小数点
✓ \$10,000
✗ \$10 000
- 逗号和小数点

见以上规则
- 尺寸

数字之间使用小写x，前后不加空格
✓ 100x100
✗ 100 x 100

4.1.3 货币 Currency

【参考 Reference】 StockX

What currencies are supported on StockX?

目前翻译需求暂无字符数限制；翻译时须对照场景图把握长度，防止爆框

Currently, there is no length limit for translations; when translating, make sure to refer to the screenshot or other context to prevent text overflow.

4.3 单复数（痛点） Singular and plural nouns

文案书写中，很多语言都有自己的复数形式。例如，如中文“%d个苹果”，英文需要翻译为“%d apple”（单数）/“%d apples”（复数）；有些语言的单复数种类更多，如阿语的单复数多达6种。Many languages have their own plural forms. For example, in Chinese "%d个苹果" needs to be translated into English as "%d apple" (singular) / "%d apples" (plural); some languages have even more types of singular and plural forms, such as Arabic, which has up to 6 forms.

现状：代码逻辑不支持多语言单复数。

Status quo: The code currently does not support singular and plural forms for different languages.

目前workaround：在名词后加(s)；尽量避免名词动词同时出现，前后两个单词都加上 (s) 实在无法接受

Current workaround: add (s) after the noun; try to avoid nouns and verbs appearing together. Adding (s) to consecutive two words is unacceptable.

预期：代码支持单复数。涉及变量+单复数时，一个key分为单、复数两条文案录入。前端展示时，根据变量自动判断使用单数还是复数文案

Expectation: The code supports singular and plural forms. When involving variables + singular/plural forms, one key is divided into entries for singular and plural forms. When displayed on the front end, the system should automatically determine whether to use the singular or plural form based on the variable.

4.4 变量和占位符 Variables and placeholders

书写文案时经常会用到变量。如 张三进入了直播间，其中“张三”可能是其他用户名称，需要用变量代替。那么该条文案需要写成 %s进入了直播间，其中 %s 为占位符。占位符的书写需遵循实际业务的代码语言规范。

Variables are often used in copywriting. For example, "张三 entered the live stream room", where "张三" is a user's name and needs to be replaced by a variable. In this case, the sentence should be written as "%s entered the live stream room," where %s is the placeholder. The writing of placeholders should follow the coding specifications of the actual business.

翻译时注意 When translating:

- 保留占位符原格式，不翻译

Keep the original format of the placeholders and leave them untranslated.

- 判断是否为拼接key。最好能将变量放在文案里，形成一条完整的句子；禁止将变量写在代码里然后拼接key
Assess if it is a concatenated key. It is best to place the variables within the string to form a complete sentence; do not hardcode variables and then concatenating the key.
Bad Case:

Default return method

Self-pickup

Merge returns ☒

Within days the returned items, or cumulative quantity of returns in a single warehouse reaches

The system will automatically merge all the returns, generate an shipping label and return the items to you at one time.

Customer Service

- 判断存在占位符的文案是否可以翻译，如不可译需与提需方沟通，修改源文案
Assess if the string with placeholders can be translated. If it cannot be translated, we need to communicate with the translation requester for modification in the source text.

5. POIZON UI 界面文案规范 // POIZON UI text standards

5.1 语言变体的选择 Language variety

现阶段我们的目标语言为美式英语 en-US，请按照美式英语的拼写和表达进行翻译
Currently, our target language is American English (en-US). Please translate according to American English spelling and expressions.

Don't x	Do ✓
Cancelled colour trousers	Canceled color pants

5.2 大小写 Capitalization

- Capitalization types:**
- Sentence case:** Capitalize only the first letter of the first word, proper nouns, and proper adjectives.
 - Title Case:** Capitalize each word—except for articles, prepositions of four or fewer letters, and so on.
 - ALL CAPITALS**

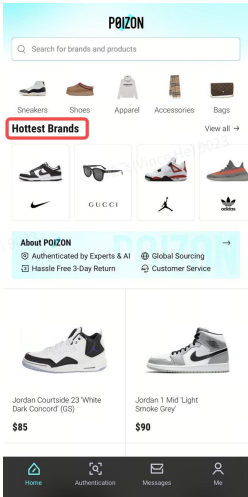

all lowercase

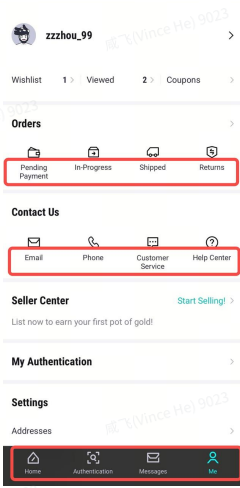

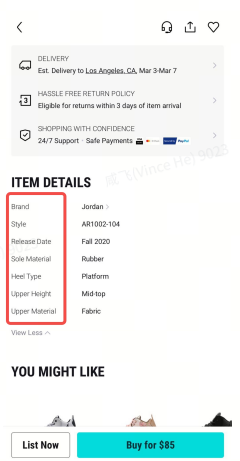

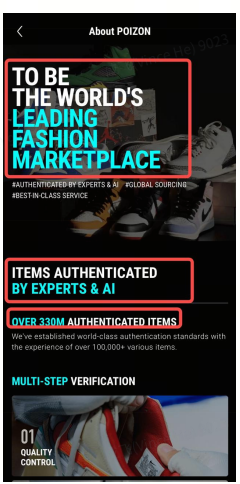

【参考 Reference】

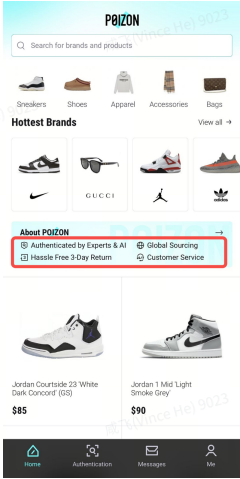

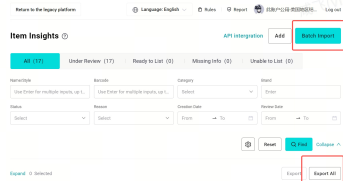

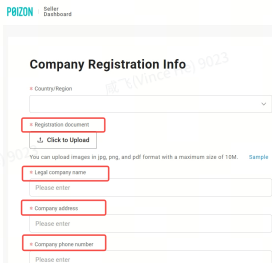

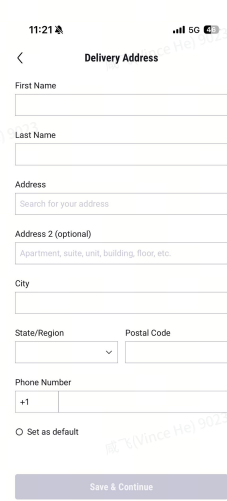

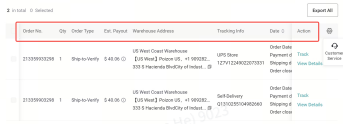

StockX	Sentence case 和 title case为主
GOAT	部分菜单、一级标题使用 All Capitals; 其他Sentence case 和 title case为主
Microsoft	Sentence case 为主

一般使用两种大小写：**第一个单词首字母大写 和 所有单词首字母大写** Two styles of capitalization are commonly used at POIZON: **Sentence case and title case.**

- ✓ 专有名词大写 Capitalize proper nouns.
- ✗ 不要大写（除非放在句首）的情况 Don't capitalize unless it's the first word:
 - a, an, or the
 - prepositions of four or fewer letters (such as on, to, in, up, down, of, and for)
 - and, but, or, nor, yet, or so
- ✗ 不要用全大写来表示强调，除非用在品宣文案或界面特殊设计的地方 Don't use all uppercase for emphasis, except for marketing content.
- ✗ 禁止全小写 Don't use all lowercase.
- ✗ 避免使用驼峰词（品牌名等专有名词除外） Don't use carmel case. E.g. StockX

 - Later
 - OK
- 类型 Type
 - 标题+正文 Title+content

- 仅标题 Title only

- 方案 Solution:

For title+content:

5.4 特定表达 Certain expressions

5.4.1 展开/收起 Expand & collapse

【参考 Reference】 StockX: 分情况。简单列表仅用箭头表示；长段正文用 “Read More”

POIZON App UI:

- More/Less
All
{number} More (Eg. 5 More)

POIZON Seller Dashboard UI:

- Expand/Collapse
- More/Less

5.4.2 折扣码/优惠码 Coupon code

折扣码/优惠码等具体概念，统一用 Coupon code

Use "Coupon code" to refer to specific concept of discount codes/promo codes, etc.

5.4.3 结款/收入之类的表达

- UI界面单独出现时统一使用 Payout;
- 段落中建议灵活转换，可使用 money 或 earning 之类的词汇

5.4.4 收藏 Wishlist vs. follow

买家 buyer-Wishlist;

卖家 seller-Follows;

商家后台

5.4.5 链接 URL

【参考 Reference】 mail.com URL vs. link

URL vs. link

In everyday speech, "URL" and "link" are often used interchangeably. Strictly speaking, however, they are different – a link describes the function, which is to take you from one place on the internet to another, while the URL describes the location itself, the place you want to go. "Link" is actually short for "hyperlink", which sometimes might just appear as a clickable interface like this – **blog** – while the URL itself remains hidden. Often when you hover over a hyperlink with your mouse cursor, the URL behind the link will be displayed.

POIZON 界面统一使用 URL

Use "URL" across the POIZON UI.

5.4.6 图片 Picture vs. image

鉴别（自己拍的）：picture；

Authentication (photo taken by the user): picture

网站上图片：image

Images on the website: image

5.5 倒计时 Countdown

Time to v.

5.6 搜索框提示词 Search suggestions

Search by/Search for/Search

5.7 结果为空时的提示 When no results found

- 界面展示为空 For general UI: Oops... There's nothing here.
- 搜索结果为空 For search results: No results found
- 无数据时 For data: No data

5.8 商品货号的译法 Style

标题处为 Style；正文部分用 Style 首字母大写，避免歧义

5.9 时间跨度 Time span

- 选择框 Time picker

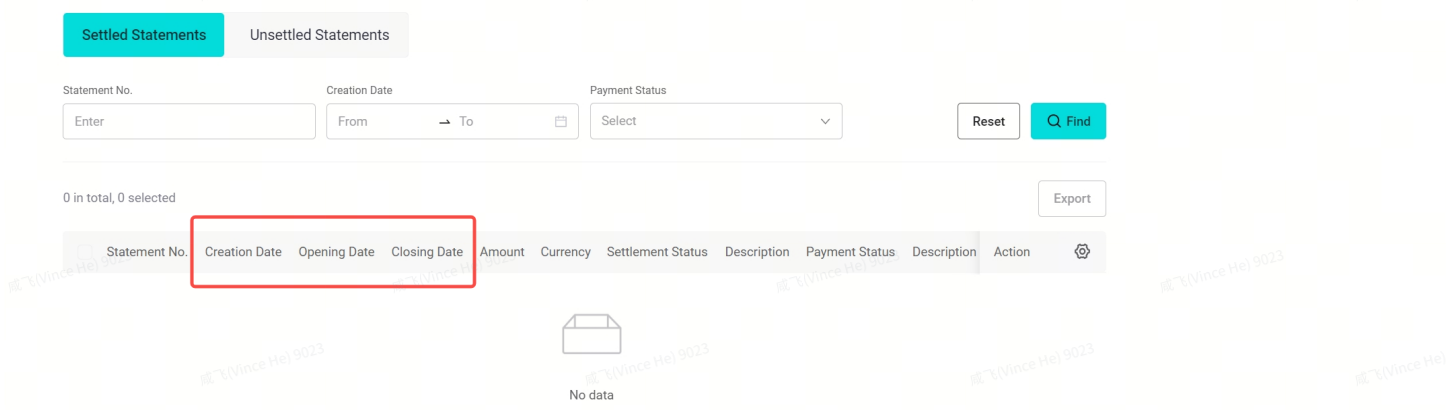

from -- to start time -- end time

逻辑问题：箭头符号已经代表 "from...to..."，此处灰字的逻辑是否是 "Select"

Since the arrow symbol already represents "from...to...", should here be "Select" or "From" & "To"?

- **表头或标题 Header or title**
根据实际情况选择 Case by case:
Start Date/End Date
Opening Date/Closing Date (开/关账日期 for billing cycle)

5.17 卖家与商品的人称和单复数、冠词 Pronouns, singular/plural forms, and articles for sellers and items

- 商品 item: The item
- 卖家 seller:
 - 界面引导性文字 UI guiding text: 用第二人称指代卖家 You/Your
 - 描述规则时 Regulatory text: 使用第三人称复数 Sellers

5.17 列表写法 List

1.
 - a.
 - b.
 - i.
 - ii.
 - c.
- 2.

6. 文化转化与本地化可行性检查 // Cultural conversion & localizability check

6.1 包容性 Be inclusive

6.2.1 避免性别偏见 Avoid gender bias

- 不要使用带性别的词汇，尽量使用中性词
Avoid using gender-specific terms; try to use neutral language whenever possible.
- 在性别未知时，即使是单数人称，也可以使用“**They**”，避免出现“**He**”“**She**”。禁止默认使用“**He**”。
When the gender is unknown, use "They" even when referring to a single person; avoid "He" or "She". Avoid defaulting to "He".

Don't x	Do ✓
Postman Bro	Postal worker/person

6.2 本地化可行性检查 Localizability check

【参考 Reference】[Multilingual — Localizability and Culture Checks: What They Are and How to Use Them](#)

- 本地化可行性检查（Localizability Check）**是本地化团队在译前阶段对界面设计进行评估，判断场景是否支持后续的文案本地化的过程。
Localizability Check is the process where the localization team evaluates the interface design in the pre-translation stage to determine if the design supports the subsequent localization of the content.
- 本地化团队的可行性检查分为两部分：**本地化可行性检查（Localizability Check）**和**文化检查（Cultural Check）**
The feasibility check of the localization team is divided into two parts: Localizability Check and Cultural Check.

检查维度参考下表：
